

Payroll management for Windows

Use CheckMark Payroll by itself or export payroll information to MultiLedger™ and other accounting packages.

CheckMark Payroll for Windows is a complete payroll system that calculates net pay, Social Security, Medicare, and federal, state, and local withholding taxes. It handles hourly or salaried pay rates and tracks regular, overtime, double-time, sick, and vacation hours. CheckMark Payroll for Windows also handles user-defined deduction and income categories, creates checks, earnings and quarterly tax liability reports, and prints on W-2s, W-3s, and 941s.

Complete Your Payroll in Less Time

Enter all employee hours in one spreadsheet-style window and retain hours for subsequent pay periods. You can also easily import employee hours.

Calculate your entire payroll automatically, including all taxes and deductions, such as 401(k) plans, with the click of a button.

Modify check numbers or even void a check.

Calculates All Federal and State Taxes

No matter where your employees are located, CheckMark Payroll calculates federal, state, and local withholding taxes, and FICA. Plus it computes federal and state unemployment taxes.

Your tax calculations can always be up-to-date because you can modify the tax tables yourself or get an update directly from CheckMark Software.

Set up your employees as tax exempt or withhold additional taxes from each paycheck.

Get the Payroll Reports You Need

Use the 941 reports to prepare your federal 941 form, state unemployment forms, and help make your 941 tax deposit. You can also print directly on 941, W-2, and W-3 forms.

Track employee earnings, deductions, hours, and taxes for a specific date or range of dates.

Get the Payroll Features You Want

Start using CheckMark Payroll any time during the year by entering year-to-date employee balances.
