

CHECK  MARK  
**Canadian  
Payroll** 

## Easy-to-Use!

From T4s and Relevé 1s to vacation calculations, CheckMark Payroll keeps you on track, in compliance, and stress-free no matter what type of business you run. Use it as a stand-alone program, or post results to your accounting software.

## Technical Support!

Most users report, "It's easy to use and sets up quickly." New users get free Technical Support for 60 days after the sale. Registration is required. Additional support is available.

### Replaces Previous Versions

The new CheckMark Payroll will accept company data files from all previous Canadian Mac or Windows versions of CheckMark.

### Includes Latest Tax Values!

CheckMark Payroll comes loaded with the current year's federal and provincial tax values. Midyear tax rate changes are available for download when necessary.

### Customized Incomes

You can have up to 20 types of income. Select from pre-defined incomes and customize your own to fit every need.

### Customized Deductions

You can have up to 30 variable, fixed, and fixed percent deductions to fit your needs. It's easy to set limits, employer matches, and pre-tax deductions.

### Printing Cheques Is Easy

Running a batch or single cheques is fast and easy with CheckMark Payroll. You can create a corrected cheque, replacement cheque, pay advances, and more.

CheckMark meets the new CPA formatting requirements for printing cheques.

### Integrates with Accounting!

CheckMark Payroll will automatically post your payroll figures into MultiLedger Accounting, CONNECTED Precision Accounting, MoneyWorks, and DBA accounting packages.

### Very User-Friendly

- Start or update at any time of the year
- Run on Mac or Windows or both
- Speed employee setup using the Employee Template
- Enter hours in one spreadsheet-style window
- Retain hours for future payrolls
- Import hours from a spreadsheet or timeclock software
- Easily modify cheque numbers or void cheques
- Handle after-the-fact payrolls
- Run unlimited employees and unlimited companies for one low cost
- Move between Mac and Windows
- Get affordable annual Updates

### Handles Taxes for You

- Annual Updates include the latest Canadian federal and provincial tax values for the entire calendar year
- Each employee can have four different hourly rates, plus overtime and double-time
- Accrues sick and vacation time on a yearly, monthly, pay period, or per-hour-worked basis
- Calculates employer matching amounts for deductions
- Distributes employee hours or wages by department or MultiLedger Job

### Get Comprehensive Reports

- Calculates EI, CPP, and tax for all provinces
- Calculates contributions for EHT (Ontario Employer Health Tax) and QHSF (Quebec Health Services Fund)
- Calculates year-end T4, T4A, and Quebec Relevé 1 amounts
- Provides complete employee reports, including employee earnings, cheque register, deductions register, plus many more
