

The Easiest Way to Run Your Payroll!

From entering hours to printing paychecks, CheckMark Payroll Software keeps you on track and stress-free no matter what type of business you run.

Complete Payroll Software for Windows and Macintosh

CheckMark Payroll is a stand-alone payroll software that integrates with many accounting systems, and handles unlimited employees and unlimited companies for one low price. CheckMark Payroll is much less expensive than a payroll service and just as easy.

CheckMark Payroll does the following without extra fees:

- Defines and automates incomes and deductions for nearly every need.
- Imports hours from a spreadsheet or time clock.
- Enters employee hours in one spreadsheet-style window.
- Accrues sick and vacation time.
- Handles tax sheltered deductions like 401(k).
- Comes loaded with federal and state withholding tables.
- Integrates data with MultiLedger, QuickBooks, Peachtree, Connected, MYOB and many other accounting programs.
- Files W-2s electronically to SSA and most states.
- Calculates employer payments and prints the checks.
- Saves ACH-compatible files for direct deposit.
- Emails secure, signed PDF pay stubs for paperless paychecks.
- Distributes employee hours or wages by department or MultiLedger job.
- Prints a completed California DE-6 form and generates an electronic DE-6 file.
- Prints and reprints checks.
- Ability to print checks with MICR coding on blank check paper (requires a one-time additional purchase).
- Quick access to payrolls from previous years (up to 4).
- Prints completed Forms 941, 940, 944, W-2 and W-3 forms on blank paper.
- And more.

Accountants and payroll services love CheckMark Payroll.

- Run unlimited employees and unlimited companies for no additional cost.
- Install on multiple computers at one location.
- Print MICR encoded checks on blank check paper. (Requires an additional purchase.)
- Run after-the-fact payrolls or single checks.
- Save most reports as text files to open in Excel or a word processor.

Q: If I buy CheckMark Payroll, what tax tables do I get?

A: When you buy CheckMark Payroll, you will also get the most up-to-date federal and state tax tables.

Q: How much are annual updates to CheckMark Payroll?

A: The Payroll Update download is currently only \$125 and includes the latest software, revised tax tables and revised tax forms. The Payroll Update is optional.

Q: Do I have to start using CheckMark Payroll at the beginning of the year?

A: No, you can start using CheckMark Payroll at any time of the year. Most new users can enter year-to-date totals for the employees as of the last completed quarter, and then enter after-the-fact checks for the current quarter.

Q: I currently use QuickBooks accounting software. Can I import Payroll data into QuickBooks?

A: Yes, you can save a posting file, which will easily import and post to your QuickBooks company. CheckMark Payroll also integrates with MultiLedger, Peachtree, MYOB, and many others.

Satisfaction Guaranteed!

Try CheckMark Payroll for 60 days. If you're not completely satisfied, return it with the original invoice for a refund.
